	Examiner Alvin J. Stewart	Art Unit 3738	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Response to Amendment*

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-5, 7 and 33-35 are rejected under 35 U.S.C. 102(e) as being anticipated by Kokubo US Patent 5,609,633.

Kokubo discloses a titanium implant (see col. 6, lines 9-10) comprising a titanium oxide (see col. 2, lines 4-15) having a double layer structure of an upper porous layer of the titanium oxide with anodic incorporation of calcium and a lower compact barrier layer of the titanium oxide with anodic incorporation of the calcium, wherein the lower barrier layer comprises less of said additional element than the upper porous layer.

The reference discloses a layer having a composition with a transition of material concentration (therefore, the Examiner can interpreted the transitional layer as having three different layers perse). Therefore, the upper porous layer is the surface extending away from the substrate because concentration of titanium oxide is decreased as disclosed in col. 2, lines 21-22

Art Unit: 3738

and the lower barrier layer is the layer having the larger concentration of titanium oxide as shown in col. 2, lines 21-25. See also col. 6, lines 9-17.

Regarding the calcium, see col. 3, lines 1-28.

Regarding claims 3-5, see col. 2, lines 25-28.

#### ***Allowable Subject Matter***

Claims 8-11 and 36-37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alvin J. Stewart whose telephone number is 571-272-4760. The examiner can normally be reached on Monday-Friday 7:00AM-5:30PM(1 Friday B-week off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
